DETAILED ACTION

1. Applicant's election without traverse of Group I, claims 6-11 in the reply filed on 23 January 2006 is acknowledged.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 6-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ballard et al, U. S. Patent 5,900,146, and Nagai et al, U. S. Patent 4,245,053.

Claims are rejected for reasons as affirmed by the Board of Patent Appeals and Interferences in its ruling in the parent application Serial Number 09/873,806 mailed 30 July 2003. The ruling was made for claims 1-6 in the parent application, which were identical to claims 6-11 now submitted.
